ABOUT

I am seeking opportunities to apply and extend my knowledge and skills gained through studies and tutoring in a relevant role in industry. My main interest is applying mathematics to develop software that solves real-world problems.

PROGRAMMING LANGUAGES

F#, OCaml, Haskell, C#, Java, MATLAB, Mathematica, R, SQL, TypeScript, Python.*

*Ordered by preference.

FRAMEWORKS AND TOOLS

.NET Core, JetBrains suite, PyTorch, SageMath, TensorFlow, Unity, Visual Studio.

EDUCATION

2020 – ongoing	Doctor of Philosophy in Computer Science	University of Queensland
2018 – 2019	Bachelor of Mathematics (Honours), 1st Class Thesis: <i>Homological aspects of Morse-Bott theory</i> . Courses: abstract algebra & number theory, advanced algebra, algebraic methods of mathematical physics, algebraic topology, functional analysis, riemannian geometry. GPA Cum. 7.0/7.0.	University of Queensland
2014 – 2015 incomplete	Bachelor of Science (Honours) in Mathematics Courses: analysis, functional analysis, measure theory, ring theory. (80% of coursework completed.) GPA Cum. 7.0/7.0.	University of Tasmania
2010 – 2012	Bachelor of Science in Mathematics Courses (selected): algorithms, calculus of variations, complex analysis, differential equations & linear algebra, dynamical systems, ICT project management, operations research, probability & statistics. GPA Maj. 6.9/7.0.	University of Tasmania

EXPERIENCE

2014 –	Private tutor Tutor of tertiary students in computing, mathematics, and statistics. TutorFinder ID: 56085.	
2015 – 2018	IT consultant Assisted the company director in technology decisions, provision of company-wide technical support, development and management of websites, administration of CMS and email systems.	The Pen Shoppe/The Model Shoppe, Brisbane
2013 – 2014	English teacher Teacher of FCE, IELTS, TOEIC, and TOEFL candidates.	American Academy, Dalat

- [2] Igor Dolinka et al. ‘Enumeration of idempotents in diagram semigroups and algebras’. In: *Journal of Combinatorial Theory, Series A* 131 (2015), pp. 119–152. ISSN: 0097-3165. URL: <http://www.sciencedirect.com/science/article/pii/S0097316514001563>.

TALKS

May 2019	<i>Homological aspects of Morse-Bott theory</i>
May 2019	<i>Hodge theory</i>
Oct 2018	<i>Čech cohomology of a cover</i>
Mar 2018	<i>Representation theory of semisimple Lie algebras</i>
May 2015	<i>Combinatorial structures on non-crossing partitions</i>

UQ analysis seminar
UQ riemannian geometry reading course
UQ algebraic topology reading course
UQ quantum field theory seminar
UTAS undergraduate research

AWARDS

- (2019) UQ *Dean's Commendation for Academic Excellence*
- (2018) UQ *Dean's Commendation for Academic Excellence*
- (2012) UTAS *Tasmania Honours Scholarship*
- (2012) UTAS *Dean's Roll of Excellence*
- (2010) UTAS *Dean's Roll of Excellence*

WORKSHOPS

- (2019) ANU *Computational Topology (WinCompTop2)* AMSI sponsored participant

AFFILIATIONS

- Applied Algebraic Topology Research Network
- F# Software Foundation
